

Eliza Vorobieva

Product and Design Lead | Innovation Consultant

UrgentIQ, Lead Product Designer

JUL 2023 - PRESENT | Remote

Spearheaded design and product strategy, driving a 20x increase in patient volume (from 35k to 760k patients) in 12 months, ensuring scalability across 55 clinic locations. Conducted user research and collaborated with leadership and engineering to define requirements and deliver key features, resulting in a 41x increase in active users from 2024. Developed and implemented a scalable design system in Figma, improving consistency and reducing inefficiencies by 25%. Streamlined engineering and product processes, including transitioning the team from Confluence/Jira to Notion, improving collaboration and reducing operational costs by 20%.

MedMe, Lead Product Designer

SEP 2021 - JUN 2023 | Remote

Spearheaded product design across the company, defining strategy, roadmaps, and key features aligned with business objectives. Led rebranding efforts, creating a design system and app redesign to increase user engagement. Mentored junior designers and facilitated cross-functional workshops to ensure alignment across teams. Contributed to strategic planning, positioning the product for long-term growth.

Freelance, Innovation Consultant

JAN 2019 - DEC 2022 | Remote

Facilitate workshops and design sprints with corporate clients. Coach them through innovation projects leveraging Design Thinking and Lean Startup methodologies. Most recently worked with the Rideau Hall Foundation to help them define their future strategy.

Kira, Product Designer

APR 2021 - SEP 2021 | Remote

Led the full design process for my product pod from user research, ideation, prototyping and validation. Also led cross-pod initiatives for design such as UX audits, defining the new design process and implementing the new branding into the product.

Opencare, Product Designer

JAN 2019 - JAN 2021 | Toronto

Led project to redesign main workflow for patient intake for practices. Redesigned the information architecture for the practice facing app to be more intuitive and to support future product vision. Designed experiments to increase funnel conversion. Worked closely with product managers and engineers to understand constraints and gather feedback to quickly ship new features.

Konrad Group, Associate Consultant

JUL 2018 - DEC 2018 | Toronto

Collaborated cross-functionally to deliver user-centered solutions and conducted independent user validation for a large financial services institution, providing valuable insights and recommendations.

Skills

Product & Design Strategy

- Roadmapping
- Problem Definition
- Persona Building
- Experience with Frontend Development

Design & User Experience

- UI/UX Design
- Low to High Fidelity Prototyping
- Design Systems
- User Research and Usability Testing
- Learning Motion Design

Leadership & Collaboration

- Design Sprint, Design Thinking Coach
- Cross-Functional Team Leadership
- Mentoring Junior Designers
- Facilitating Workshops & Strategy Sessions

Tools

- Figma
- Webflow
- Notion, Jira
- HTML, CSS, JavaScript, GIT
- ChatGPT, Cursor, TempoLabs
- Rive

University of Waterloo

Class of 2018 | Coop

BASc, System Design Engineering

Baylis Medical Scholarship – \$5K
Norman Esch Award – \$10K

Volunteering

Design Mentor

Guest Lecturer for Humber College

Judge at Western University

Designathon

Other Interests

I'm bilingual (Russian and English), I love travel, music, latin dance, watercolour and anything outdoors
